CITY OF WARRENTON
CITY RECORDERS OFFICE

Application for City Commission Appointment
(Please complete both pages)

To: **Warrenton City Commission**

I, Brooke Terry, hereby apply for an interim appointment to serve on the Warrenton City Commission.

What is your interest in applying for this position? *

I'm passionate about helping Warrenton grow in ways that strengthen our community. Since 2021, I've served on the Parks Advisory Board and previously served on the Urban Renewal Advisory Committee. These experiences have deepened my understanding of how thoughtful planning and community input can shape a city's long-term success. I am interested in continuing to serve Warrenton by contributing a balanced, community-focused perspective.

What experience or qualifications do you have for this position?

I bring several years of experience working with city processes and community organization through my advisory roles and founding Warrenton Parks Alliance, a nonprofit that partners with the city, where I've gained experience in project coordination, collaborative planning, public engagement, and fundraising to lead community-driven solutions.

What is your education background?

I have a Bachelor of Arts in Education degree from Washington State University where I graduated magna cum laude. My education background has provided a strong foundation in communication, leadership, and community engagement, which I apply through my public service and non-profit work.

What is your vision for the City of Warrenton? *

My vision is for Warrenton to continue developing as a connected, vibrant, and sustainable community, focused on preserving our natural resources and small-town character. I'd like to see continued investment in parks, trails, infrastructure, and public spaces that foster health, safety, and civic pride. By working collaboratively, we can plan for a future that supports residents and strengthens Warrenton's identity as a community.

What are the greatest challenges to the City of Warrenton? *

Managing growth responsibility, maintaining infrastructure, and ensuring that housing, recreation, and economic opportunities remain accessible to all residents. Environmental sustainability and resilience to coastal conditions are also important considerations for our future. Addressing these challenges will require careful planning, transparent communication, and strong partnerships between the city and community.

**Attach additional page if statement is longer than space provided*
