BUDGET MESSAGE

May 15, 2021

Dear Budget Committee Members:

Enclosed is the proposed budget for the City of Warrenton Fiscal Year (FY) 2021-2022.

The purpose of the Budget Message, and other information included in the budget document, is to provide sufficient information to the Budget Committee, the City Commission, and residents so that an understanding of the proposed budget for the coming fiscal year may be gained.

The proposed budget was developed pursuant to state statute, City of Warrenton Fiscal Policy, Budget Development Policies, and the Budget Strategic Plan & Resource Reduction Policy. <u>The information contained in the proposed budget represents the City staff's best estimates of resources and expenditures. These were obtained using professional judgment, existing policies, budget history, and generally accepted accounting practices.</u>

This Budget Message is presented in six sections: Introduction, Budget Committee, Budget Officer, Budget Format, Summary, and Conclusion.

INTRODUCTION

The City provides a wide range of services to its residents and businesses. These include police and fire protection, municipal court, city parks, dikes, street maintenance, land use planning and development, building inspection, general administration, water treatment and distribution, wastewater collection and treatment, refuse collection, and moorage. The annual City budget is a spending plan and guide for the City of Warrenton subject to statutory restrictions.

The budget includes a comprehensive listing of anticipated revenues and proposed expenditures for each function of the local government during the next fiscal year that begins July 1, 2021 and ends June 30, 2022.

The overall spending authority for the proposed FY 2021-2022 Budget is \$36,032,417.

Revenues across all funds are estimated to increase by approximately \$4 million. This is due to increases in estimated beginning fund balances in some funds, the purposeful delay of several

projects in the current year, transfers between funds and a very conservative budget approach last year. Part time and seasonal help were eliminated, and several positions stayed vacant for a significant portion of the year. Spending was limited to necessity only shortly after the start of the pandemic last spring. These steps allowed the City to withstand major fiscal impacts from the pandemic rather successfully. Most of the impact from COVID-19 came in the form of reduced transient room tax. This budget is based on the best information we had at the time of preparation. This budget DOES NOT reflect anticipated revenue from the American Recovery Act. We have not received the details and regulations related to how we can spend ARA funds, so a budget adjustment is likely after we receive more information on spending authority.

The Building Department continues to maintain a healthy fund. COVID does not appear to have had a major impact on limiting development in our community. At the writing of this budget message, the city has issued building permits for 12 single family dwellings, 4 duplexes, 1 Townhome and 4 commercial permits. We do anticipate a reduction in permit revenue, but last year included major projects including the jail and the school. Revenues in this fund can only be used to pay for Building Department activities.

Enterprise fund debt service requirements will require the City to carefully manage all revenues and expenditures to ensure the continued financial health of the City as well as the timely repayment of debt. Growth continues to stretch service demands.

For the second year in a row, the City is not proposing an increase in utility rates, due to the impacts of COVID on our businesses and citizens. We are anticipating American Recovery Act funding may be able to offset the lack of rate increases, as we expect to be able to use a significant amount of these funds for utility infrastructure.

This budget includes an increase in FTEs (pg. 29) over last year by 3.6700. This includes adding a Fire Marshall position (with grant funding if successful), a Utility I worker in Public Works, adding hours to existing positions in the library and municipal court and adding back the Assistant Harbor Master position, which was eliminated last year. The Police Data Processor was previously listed as a temporary position but has been a casual permanent position for the past several years and should be reflected in the overall FTEs.

BUDGET COMMITTEE

The City of Warrenton Budget Committee consists of the City Commissioners (the governing body) and an equal number of residents appointed by the City Commission for a total of ten committee members. An appointed committee member must be qualified to vote in elections within the City. Neither the Budget Officer nor any member of city staff is eligible to serve as an appointed member of the budget committee. Appointed committee members serve on the committee for three-year terms. Reappointments for additional three-year terms are permitted. By staggering appointments to the committee, only one-third of the appointed committee members complete their terms each year.

All members of the committee have the same degree of authority and responsibility. The Budget Committee announces the time for its meeting(s), receives and deliberates on the proposed budget

document, hears the Budget Message, and receives public input. Minutes of the meetings are kept by the City Recorder and are available to the public. The Budget Committee may request information from the Budget Officer that may require expansion on, or revision of, the budget document. All official action of the Budget Committee requires a quorum (six) of the membership, and a majority vote (one-half, plus one) of the membership present at the time of the vote.

In its deliberations, the Budget Committee reviews and, if necessary, revises the proposed budget from the Budget Officer. The Budget Committee generally studies the budget by using previous year data, current budget data, and the figures proposed by the Budget Officer. The Budget Committee is required to seek and receive citizen input from the public. The committee has the authority to set up rules for receiving citizen input, as well as rules under which the committee will function. The Budget Committee reviews each fund within the budget and can make changes as required.

The Budget Committee formally approves the entire budget as proposed or modified and affirms the tax levy amount or rate for the City. The Warrenton City Commission has the final responsibility for allocating the resources of the budget.

BUDGET OFFICER

State statute requires that a Budget Officer is appointed and that the Budget Officer present a balanced budget to the Budget Committee. Acting under the authority of Warrenton's City Charter, the City Commission has designated the City Manager as the City's Budget Officer. Historically, the duties of the Budget Officer include the following responsibilities to one degree or another:

Coordination of the Budgetary Process

This typically includes preparation of revenue projections and compilation of the expenditure requests from each of the City's departmental units. After a final proposed budget is prepared, it is presented to the City of Warrenton Budget Committee. Following review and possible modification, the committee adopts a motion to forward an approved budget to the City Commission with a recommendation to accept. The City Commission then reviews the approved budget as presented, conducts a public hearing, makes any desired modifications, and then passes a resolution to create an adopted budget. The adopted budget must be created prior to June 30, 2021.

Monitoring Budgetary Performance throughout the Budget Year

This includes overseeing the City of Warrenton's Finance Department, which is responsible for the tracking of actual revenues in relation to projections, and the monitoring of expenditures and encumbrances in relation to appropriations.

BUDGET FORMAT

Following is a brief description of how the budget document is organized. Please refer to the Table of Contents for locating each of the items.

Located in the first portion of the budget document are pages showing the Budget Message, Budget Committee membership, and Budget Review Calendar. These are followed by a presentation of the Warrenton Fiscal Policy, Budget Development Policies, and the Budget Strategic Plan & Resource Reduction Plan.

Following these broad policy documents is a tabulation of Personnel Allocations, Full Time Equivalents (FTE), and Organizational Structure and Staffing. The Personnel Allocations and the FTE listings provide the number of employees budgeted in each individual department and salaries that are paid from more than one source. These two sources of information are provided to help the Budget Committee identify the personnel charges for each individual departmental unit within the budget document.

A summary of the requirements for the thirty-two active City funds that make up the proposed budget follows the personnel review.

A summary of interfund transfers among funds is detailed in the budget. This is an accounting function to delineate where the funds are actually being allocated and spent. This section summarizes transfers from the General Fund to other funds and Enterprise Operating Funds to Capital Reserve Funds.

A review of budget programs provides a brief summary of each program and changes, if any, proposed for the 2021-2022 budget.

A General Fund section displays Resources and Requirements, Summary of Revenues, Summary of Expenditures, General Fund expenses by Department (pie-chart), and Expenditures by Department. The individual expenditures by department sections looks at each departmental unit over the last two complete years, the current budget year, and the adopted budget. The remaining individual funds are listed in the remaining portion of the proposed budget document. These include Special Revenue Funds, Enterprise Funds, Debt Service Funds, and Capital Projects Funds.

SUMMARY

Following is a brief review of the major elements of the proposed budget.

Property Tax

A three percent increase in the rate-constrained property tax collections has been applied in the proposed budget. The City's permanent tax rate is \$1.6701 per \$1,000 of assessed property valuation. The local option levy for police services was approved by voters on May 15, 2018 and is 28 cents per \$1,000 of assessed property valuation. That levy began July 1, 2019 and runs through June 30, 2024. It is estimated the current police levy will raise \$190,888 this fiscal year. The current levy for the library is 33 cents per \$1,000. Every \$100,000 of assessed value will have a city property tax of approximately \$228, if the proposed budget is adopted,. This does not include any general obligation bond levies.

Personnel Cost

The proposed budget includes a 2.5% cost of living wage increase beginning July 1, 2021, for all general unit and non-union employees and a 2% cost of living wage increase beginning July 2021, for all police association members.

Indirect Costs

The proposed budget incorporates governmental accounting principles that require municipalities to present to the public a clear picture of costs for each service provided. Over the past ten years the City has continued to use an indirect cost allocation plan. In the proposed budget, the City has consolidated all indirect costs to be allocated within the budget based on a percentage-of-spending methodology. The proposed budget indirect cost allocation plan is consistent with the adopted City fiscal policies, which provide that:

"Overhead/Indirect Cost Allocations All departments should budget the amount allocated to that department as determined by the Budget Officer and/or any future Indirect Cost Allocation Plan.

<u>Full Cost Recovery</u> The City will make every effort to assign costs where they occur through the use of interdepartmental/interfund charges and indirect cost assignments. The intent is to clearly define the true cost of City services provided both internally and externally. Recognizing the scale of this effort, the first priority is the recovery of overhead costs from all funds and grant programs.

Accurate Representation of Service Costs As with General Fund services, the citizens of Warrenton have a right to understand the full and undistorted actual costs associated with City services. Consequently, it will be the policy of the City of Warrenton that all departmental, service, and program costs will reside in the fund and department in which the activity occurs and where the service and cost has been historically linked.

General Fund

The General Fund is the account with which general City operations are funded. It records expenditures needed to run the daily operations of the City such as wages, rent, and consumable materials. It also shows the money that is estimated to be available to pay for these general needs. The City anticipates an increase in General Fund resources and an increase in total expenditures. The City of Warrenton provides and maintains various services under the General Fund. A summary of the operating expenses for these services in the coming Fiscal Year compared with the current year follows:

	2020-2021	2021-2022
Municipal Court	\$160,306	\$187,431
Administration/Commission	\$1,167,282	\$1,223,114
Planning Services	\$292,992	\$287,914
Police Services	\$2,000,654	\$2,098,395
Fire & Emergency Medical Services	\$855,386	\$944,476
Parks	\$163,557	\$186,654
Contingency	\$235,517	\$254,938

Enterprise Funds

An Enterprise Fund is the account with which special City operations are funded by user fees in a manner similar to a private business. Each Enterprise Fund records the resources and expenses of acquiring, operating, and maintaining a self-supporting facility or service, such as City Mooring Basins, the Water Utility, the Sewer (Wastewater) Utility, the Storm Sewer (Storm Water Management) Fund and the Sanitation Utility.

The financial health of the City Sewer Fund, Water Fund, and Storm Sewer Fund will determine the quality of services that will be available in the future. It is important that City enterprise funds be properly maintained and efforts made to ensure that all costs are being captured. Recovering the actual costs associated with enterprise activities is crucial for sustaining the services.

The City of Warrenton maintains a number of enterprise funds. A summary of the operating expenses of these utilities in the coming Fiscal Year follows:

	2020-2021	2021-2022
Warrenton Marina Fund (010)	\$658,797	\$851,644
Hammond Marina Fund (011)	\$393,401	\$563,652
Water Fund (025)	\$7,532,069	\$8,925,702
Storm Sewer Fund (028)	\$1,286,700	\$1,272,221
Sewer (Wastewater) Fund (030)	\$4,119,661	\$5,501,921
Sanitation Fund (032)	\$1,476,764	\$1,399,279

Special Revenue Funds

A special revenue fund is an account with which specially designated city operations are funded by revenues specifically earmarked for such use. Each Fund accounts for money that must be used for a specific purpose and it records the expenditures that are made for that purpose. Warrenton maintains a variety of special revenue funded services. A summary of the operating expenses of these funds in the coming fiscal year follows:

	2020-2021	2021-2022
Community Center Fund (005)	\$25,119	\$26,271
Warrenton Business License Fund (006)	\$133,346	\$82,091
Grant Fund (015)	\$116,209	\$172,246
Library Fund (020)	\$255,070	\$308,477
Building Department Fund (021)	\$492,175	\$571,145
Transient Room Tax Fund (024)	\$318,000	\$290,000
Facilities Maintenance Fund (035)	\$96,500	\$115,500
State Tax Street Fund (040)	\$2,872,892	\$3,183,459
Quincy Robinson Trust Fund (065)	\$97,000	\$123,000

Capital Reserve Funds

A Capital Reserve Fund is the account with which specially designated long term City projects, physical plant construction or equipment purchases costing more than \$5,000 are funded. Each fund accumulates money to pay for the service, project, property, or equipment planned for acquisition. Each functions as a savings account. A resolution is needed to set up a reserve fund and it must have a specific purpose. After money is placed in a reserve fund it can only be spent for the specific purpose of the fund. Purchases are made directly out of the reserve fund and money cannot be transferred out of the reserve fund to another fund. Warrenton maintains a number of capital reserve funds. Funds that show \$0 means we are not appropriating money this fiscal year; it does not reflect the amount saved within that fund. A summary of the operating expenses of these funds in the coming fiscal year follows:

	2020-2021	2021-2022
		40.505
Community Center Capital Reserve Fund (004)	\$7,587	\$8,587
Warrenton Marina Capital Reserve Fund (012)	\$0	\$385,000
Hammond Marina Capital Reserve Fund (013)	\$840,000	\$398,000
Water Systems Development Fund (026)	\$58,000	\$0
Water Fund Capital Reserve Fund (029)	\$3,677,723	\$4,128,600
Sewer Systems Development Fund (036)	\$0	\$0
Sewer Fund Capital Reserve Fund (038)	\$1,227,020	\$555,650
Storm Sewer Systems Development Fund (051)	\$0	\$0
Sanitation Fund Capital Reserve Fund (034)	\$20,850	\$34,950

Debt Service Funds

A Debt Service Fund is the account with which specially designated debt is retired by periodic or lump sum payments by the City. Each fund accounts for money that must be repaid on debt incurred by the City for specific purposes. Expenditures from the fund are normally the principal and interest payment(s) planned many years in advance. Money dedicated to repay bonds cannot be used for any other purpose. Warrenton maintains one debt service fund for incurred debt. A summary of the planned expenses of this fund in the coming fiscal year follows:

	2020-2021	2021-2022
Wastewater Treatment GO Bond Fund (059)	\$566,238	\$563,908

Capital Projects Funds

A Capital Project Fund is the account with which specially designated capital projects costing more than \$5,000 are built or acquired. Each Fund accounts for money and expenses used to build or acquire individual capital facilities such as land or buildings. These funds are used only while a project is being done. The fund is closed after the project has been completed. Warrenton maintains a number of capital project funds for capital projects. A summary of the planned expenses of these funds in the coming fiscal year follows:

;	2020-2021	2021-2022
Parks SDC Fund (003)	\$0	\$40,000
Streets SDC Fund (041)	\$0	\$0
Police Vehicle Replacement Fund (070)	\$57,000	\$118,000
Fire Apparatus & Equipment Replacement F	und (071)\$625,000	\$713,000
Tansy Point Dock Capital Reserve Fund (072		\$213,580

The six year Capital Improvement Plan identifies projected capital needs and projections for each department. The purpose of this planning tool is to understand fully where the City is headed with its programs and to be able to plan long term for our needs, as well as understanding the impacts of each year's decisions.

Internal Service Funds

An Internal Service Fund is used to report activity that provides goods or services to other funds, departments, or agencies of the primary government and its component units, or to other governments, on a cost-reimbursement basis. The government must be the primary participant, and the fund must function on an essentially break-even basis over time. The City began using one Internal Service Fund in 2015-2016. A summary of the planned expenses of this fund in the coming fiscal year follows:

	2020-2021	2021-2022
Engineering Internal Service Fund (042)	\$172,569	\$132,834

CONCLUSION

Department Heads worked diligently over several months to provide sufficient yet conservative budgets. Finance Director April Clark and her staff dedicate many hours to the preparation of this document. While there are still many unknowns as we work through the pandemic, staff did a fantastic job with maintaining an extremely disciplined approach to operations last year which put us in a much better than anticipated position as we move into next fiscal year, and we were able to restore some of the positions and projects we cut last year.

I look forward to reviewing this proposed budget with you and working collaboratively to make the best funding decisions we can in order to continue advancing the future of Warrenton.

Respectfully submitted,

Linda Engbretson Budget Officer

Resolution Number - 2031

A Resolution Establishing a Fiscal Policy for the City of Warrenton

The City Commission of the City of Warrenton hereby resolves the following:

FISCAL POLICY

Section A. Revenue Policy

- 1. <u>Revenue Policy.</u> The cumulative increase of revenue from the levy of property tax will not exceed the maximum allowed under Oregon law and the Oregon Constitution.
- 2. SDC & Capital Connection Fees. Capital connection fees and/or System Development Charges will be established that reflects the cost of water and sewer improvements to service additional increments of growth. Capital connection fees and/or System Development Charges (SDC) will reflect a proportionate share of actual cost to be determined through a SDC methodology as provided for in the Oregon Revised Statutes. It will be the policy of the City of Warrenton to recover the appropriate capacity costs associated with new development and to minimize the cost of growth on existing utility users as much as possible.
- 3. <u>Maximization of User Fees.</u> It will be the policy of the City of Warrenton to maximize the utilization of user charges in lieu of ad valorem taxes for services that can be individually identified and where the costs are directly related to the level of service;
 - a. It will be the policy of the City to ensure that utility fees, user fees and user rates for water, sewer and all other fee supported services will be sufficient to finance all operating, capital and debt service costs associated with the service for which they are charged.
- 4. <u>Discretionary Revenues</u>. The City will seek to maximize all discretionary revenues in the General Fund as much as possible. Discretionary revenues include, but are not limited to, taxes, shared revenue, franchise fees and lease receipts.
- Revenue Projections. The City will project General Fund revenues and expenditures for two years
 and will update the projections annually. The first revenue projections will be completed with one
 year of the adoption of this Resolution.

Section B. Budget Policy

- Revenue will be sufficient to support current operating expenditures. Any reduction in services and programs will occur in accordance to the City's Resource Reduction Strategy (City Resolution 2033).
- 2. Debt or bond financing will not be used to finance current operating expenditures.
- The City will strive to develop, over a period of time, the information needed to include performance measures in the City's budgeting process.

- The City will coordinate all current risk management activities in order to better protect against loss and a reduction in exposure to liability.
- 5. The City will establish an equipment/vehicle replacement reserve fund to replace capital outlay items with a life of more than two years and a value of \$5,000 or more.
- The City will seek a reasonable basis for allocating personal service costs.

Section C. Capital Improvement Policy

 The City will prepare and adopt capital improvement plans that will detail capital projects and needs associated with water and wastewater improvements. The plans will also include estimated capital cost for improvements and list potential funding sources.

Section D. Accounting Policy

- The City will establish and maintain the accounting systems in accordance with governmental
 accounting principals accepted in the United States, the Generally Accepted Principles and
 Standards of the Government Finance Officers Association (GFOA), and the National Committee
 on Governmental Accounting.
- An annual audit will be performed by an independent public accounting firm that will issue an
 official opinion on the annual financial statements, with a management letter detailing areas that
 need improvement if required.
- Full disclosure will be provided in the financial statements and bond representations.
- 4. Financial systems will be maintained to monitor expenditures and revenues on a monthly basis by both City Department Heads and the Finance Director with any adjustments being made prior to the end of the year.

Section E. Debt Policy

- Capital projects, financed through the Issuance of bonds, shall be financed for a period not to exceed the expected useful life of the project.
- The City will attempt to utilize the lease/purchase of capital equipment if determined to be costs
 effective.

Section F. General Fund Reserve Policy

 The City will strive to attain a General Fund Contingency of 5% of the overall General Fund to be used for unanticipated emergencies within the next five years.

Section G. Selection of Finance Consultants

1. Solicitation. If deemed appropriate by the City Commission, the City Manager shall be responsible

for establishing a Request for Proposals (RFP) and selection process for securing professional services that are required to develop and implement the City's debt program. Goals of the solicitation and selection process shall include encouraging participating from qualified service providers at competitive prices. RFPs may included the following types of services: 1) Bond Counsel, 2) Underwriters, 3) Financial Advisors, and; 4) Paying Agents.

Section H. Comprehensive Capital Planning & Financing

- 1. <u>Debt Financing.</u> It shall be the responsibility of the City Manager, within the context of the City's Capital Plans, to recommend to the City Commission the most advantageous debt instruments for financing capital projects. The City Manager will also oversee and coordinate the timing, process of issuance, and marketing of the City's borrowing and capital funding activities required in support the Plan.
- 2. <u>Maintenance, Replacement and Renewal.</u> Consistent with its philosophy of keeping the community's infrastructure in good repair, and to maximize the community's infrastructure's useful life, the City should set aside sufficient current revenues to finance ongoing maintenance needs and to provide reserves for periodic replacement and renewal.
- 3. <u>Debt Authorization.</u> The City Commission will authorize no debt to be issued for the purpose of funding capital projects unless it has been included in the Capital Improvement Plan or until the Commission has modified the Plan. Such modification shall occur only after the Commission has received a report of the impact of the contemplated borrowing on the City and the community in general. The Commission will also consider the City Manager, or professional consultant's recommendations as to the financing arrangements.

Section I. Limitations on City Indebtedness

1. It will be the policy of the City of Warrenton to apply all City Charter debt restriction consistent with all applicable definitions and restrictions established in law (see exhibit A).

Section J. Structure and Term of City Indebtedness

- Debt Authorization. Nothing in this Fiscal Policy will be construed to limit the City from considering, and utilizing, any and all debt instruments available to municipal governments in Oregon.
- 2. <u>Debt Repayment.</u> Generally, borrowing by the City should be of a duration that does not exceed the economic life of the improvement that it finances and where feasible should be shorter than the projected economic life. Moreover, to the extent possible, the City should design the repayment of debt so as to recapture rapidly its credit capacity for future use. The City may choose to structure debt repayment so as to wrap around existing obligations or to achieve other financial planning goals. Such alternative structures shall be subject to the recommendations of the City Manager, the Finance Director and the approval of the City Commission.

Section K. Method of Sale - Bonds

1. Competitive Sale. The City, as a matter of policy, shall seek to issue its debt obligations in a

competitive sale unless it is determined by the City Manager that such a sale method will not produce the best results for the City. In such instances where the City, in a competitive bidding for its debt securities (whether general obligation or non-general obligation debt) deems the bids received as unsatisfactory or does not receive bids, it may, at the election of the City Commission, enter into negotiation for sale of the securities.

- 2. <u>Negotiated Sale.</u> When determined appropriate by the City Manager and approved by the City Commission, the City may elect to sell its debt obligations through a negotiated sale. Such determination may be made on an issue by issue basis, for a series of issues, or for part or all of a specific financing program.
- 3. <u>Private Placement.</u> When determined appropriate by the City Manager and approved by the City Commission, the City may elect to sell its debt obligations through a private placement or limited public offering. Selection of a placement agent shall be made pursuant to selection procedures developed by the City Manager and consistent with all applicable laws.

Section L. Short-Term Debt & Interim Financing

1. Commercial Lines of Credit. Where their use is judged by the City Manager to be prudent and advantageous to the City, the City has the power to enter into agreements with commercial banks or other financial entities for purposes of acquiring lines of credit. Before entering into any such agreements. The City Commission shall approve any agreements with financial institutions for the acquisition of credit. Lines and letters of credit entered into by the City shall be in support of projects contained in an approved Capital Plan. The City shall not secure lines or letters of credit for the purposes of paying for operations.

Section M. Improvement District and Assessment Contract Financing

- 1. <u>Interest Rates on Improvement Assessment Loans.</u> The contract interest rate on loans made from the proceeds of improvement Assessment Bonds shall be equal to the effective interest rate paid on the bonds sold to finance such loans plus an additional percentage markup to cover self-insurance and loan servicing costs. The contract interest rate shall be determined on the day of the sale of Improvement Assessment Bonds for those assessment contracts financed with proceeds of the sale.
- 2. <u>Interim Assessment Contract Interest Rates.</u> The interim assessment contract interest rate is the interest rate set on contracts that precede the sale of Improvement Assessment Bonds. This rate shall be set at a level deemed reasonable and prudent by the City Manager and the Finance Director to insure that funds collected through assessment contract payments are sufficient to meet that portion of future debt service requirements on Improvement Assessment Bonds attributable to such contracts.
- 3. Commitment to Self-Supporting Local Improvement Districts. Consistent with the concept of the Local Improvement District, all of the City's Local Improvement District's (LID) indebtedness shall be self-supporting. Prior to the issuance of any LID supported debt, the Finance Director will review projected cash flows which incorporate scheduled assessment contract payments, prepayments, delinquencies, and non-payments with the City Manager to ensure that the proposed Bonds shall meet the City's self-support requirement.

Section N. Refunding of City Indebtedness

- 1. <u>Debt Service Savings Advance Refunding.</u> The City may issue advance refunding bonds (as defined for federal tax law purposes) when advantageous, legally permissible, prudent, and net present value savings, expressed as a percentage of the par amount of the refunding bonds, equal or exceed 3 percent as provided by law. Exceptions to this requirement shall be made only upon the approval of the City Commission.
- Debt Service Savings Current Refunding. The City may issue current refunding bonds (as defined for federal tax law purposes) when advantageous, legally permissible and prudent.
- 3. Restructuring of Debt. The City may choose to refund outstanding indebtedness when deemed in the best interest of the Community.

This resolution is effective December 1, 2003.

Mayor Jeff Hazen

City Manager

Attest:

Resolution Number 2032

A Resolution Establishing Budget Development Policies for the City of Warrenton

The City Commission of the City of Warrenton hereby resolves the following:

BUDGET DEVELOPMENT POLICIES

1. General Fund Budget

- A. <u>Balanced Operating Budget</u>. The City shall adopt a balanced budget where operating revenues are equal to, or exceed operating expenditures. Any increase in expenses, decreases in revenues, or combination of the two that would result in a budget imbalance will require budget revisions, rather than spending unappropriated surpluses or designated reserves to support ongoing operations. Any year-end operating surpluses will revert to unappropriated balances for use in maintaining reserve levels.
- B. <u>Budget Document</u>. The operating budget shall serve as the annual financial plan for the City. It will serve as the policy documents of the City Commission for implementing goals and objectives. The budget shall provide the staff the resources necessary to accomplish City Commission determined service levels.
- C. General Fund Emphasis. In light of the passage of recent property tax limitations, and the potential need for expenditure reductions, the emphasis should be on conserving General Fund discretionary resources to fund high priority programs. Given this, it is the City's goal to prepare a budget that, to the greatest extent possible, maintains existing high-priority programs supported by the General Fund while at the same time seeking savings wherever possible. If necessary, funding for lower priority programs will be reduced or eliminated to insure that expenditures remain in balance with resources.
- D. <u>Cost Efficiency.</u> The Budget Officer will prepare a fiscally conservative budget and will seek savings wherever a balance between cost efficiency and the quality of public service can be achieved.
- E. <u>Base Budget New Expenditures.</u> As part of the Budget Officer's budget preparations, all City departments will prepare base budgets with no new regular positions, or other expenditures, unless specifically authorized by the Budget Officer.
- F. <u>Base Budget Budget Reductions.</u> If anticipated costs exceed anticipated revenues, the Budget Officer will consider reductions in staffing levels, public services and related expenses in accordance to the City's Budget Reduction Strategy (City Resolution 2033). In addition, the Budget Officer will also consider the reorganization of departments, changes in staffing or positions if needed.

- G. <u>Base Budget Materials & Services</u>. For activities or programs funded primarily from General Fund or other discretionary resources, City departments will prepare base budgets with a goal of holding materials and services expenditures to no more than the previous fiscal year's budget level. The Budget Committee must approve proposed increases in General Fund expenditures.
- H. Accurate Representation of Service Costs. The Citizens of Warrenton have a right to understand the full and undistorted actual costs associated with City services.
 Consequently, it'll be the policy of the City of Warrenton that all departmental, service and program costs will reside in the fund and department in which the activity occurs and pursuant to Generally Accepted Accounting Principles.
- I. Revenue Estimates. City departments should budget for revenues based on the best information available during the budget process. If additional information becomes available during the budget process, it should be provided to the City Manager. Accuracy in revenue/expenditure estimates is critical. New revenues should be estimated based on available information the first year. Subsequent annual estimates should also take into consideration actual receipts from the previous year.
- J. <u>Pursuit of New Departmental Revenues</u>. The City will pursue revenue sources to the fullest extent possible for all services as well as total cost identification, including indirect costs, for fee setting purposes. To the extent possible any new revenue sources should be used to offset the cost of existing staff and programs, rather than funding new services.
- K. <u>Expenditure Reductions</u>. Reductions in revenues may require expenditure reductions from a base budget level. Should such reductions be required, the City Manager will be guided by the City's adopted Resource Reduction Policy.
- L. <u>Full Cost Recovery.</u> The City will make every effort to assign costs where they occur through the use of interdepartmental/interfund charges and indirect cost assignments. The intent is to clearly define the true cost of City services provided both internally and externally. Recognizing the scale of this effort, the first priority is the recovery of overhead costs from all funds and grant programs.
- M. <u>User Rates.</u> It will be the policy of the City of Warrenton to set utility fees at levels that provide for the actual costs of services, including operating, maintenance and future capital and improvement expenses. When considering user rate structures, the City should always strive to demonstrate the real and actual costs of City services to the public. The City Enterprise Funds shall be supported by their own rates and not subsidized by the general Fund.
- N. <u>Budget Savings During the Year.</u> To the extent General Fund supported departments experience savings during the year (due to position vacancies, etc) that money should not be spent. Instead it should be saved to augment the beginning fund balance for the next fiscal year.

2. Non-General Fund Budgets

- A. <u>Bottom Line Emphasis</u>. For activities or programs funded primarily from non-General Fund sources, City departments will prepare base budgets with a goal of holding any General Fund contribution to no more than the amount provided in the previous fiscal year, subject to the availability of funds. Whenever possible, reductions in General Fund contributions should be sought.
- B. <u>No Backfilling.</u> With possible exceptions for high priority programs, General Fund discretionary dollars will not be used to back-fill any loss in State-shared or federal revenues.
- C. Revenue Estimates. Departments should budget for revenues based on the best information available at the time the budgets are prepared. If additional information becomes available during the budget process, it should be provided to the City Manager. New revenues should be estimated based on available information the first year. Subsequent annual estimates should also take into consideration actual receipts from the previous year.
- D. <u>Accurate Representation of Service Costs.</u> As with General Fund services, the Citizens of Warrenton have a right to understand the full and undistorted actual costs associated with City services. Consequently, it'll be the policy of the City of Warrenton that all departmental, service and program costs will reside in the fund and department in which the activity occurs and where the service and cost has been historically linked.
- E. Overhead/Indirect Cost Allocations. All departments should budget the amount allocated to that department as determined by the Budget Officer and/or any future Indirect Cost Allocation Plan.
- F. <u>Cost Efficiency.</u> As with the General Fund, staff responsible for non-General Fund budgets will prepare fiscally conservative budgets and will seek savings wherever a balance between cost efficiency and the quality of public service can be achieved.

3. Matching Funds

- A. <u>City Share.</u> If State funding is reduced for a specific service or project, there should be no increased contribution from non-General Fund sources unless increased City share is mandated or the increase is approved by the City Commission.
- B. <u>In-kind Contribution.</u> Where matching funds are required for grant purposes, the City will provide as much in-kind (resources already allocated by the City that will be expended in any case) contribution as allowed, instead of hard-dollar matches.
- C. <u>General Fund Matching Funds.</u> No General Fund grant cash-match will be included in any grant applications without the prior review and approval of the City Commission.

4. New Positions Generally

A. <u>Considerations of New Positions.</u> Unless otherwise determined by the Budget Committee, the Budget Officer will consider new permanent positions only if the cost of the position is offset by non-General Fund sources or a General Fund operating levy, or if the cost of the position is offset by a new external revenue source. Cost estimates for new positions will include office facility space, benefits, equipment, rent, utilities, supplies, etc. The Budget Committee may add new positions if determined essential for a high priority service and funding can be obtained.

5. Mid-Year Budget Reductions

A. Revised Revenue Estimates. If additional information concerning revenue reductions becomes available after the start of the fiscal year, it may be necessary to make budget adjustments. These adjustments will be made in accordance with the City Commission's adopted Resource Reduction Strategy.

6. Mid-Year Request, General Fund Contingency

- A. Non-Emergency Requests. In those cases where a department is required to absorb an unanticipated cost beyond its control of a non-emergency nature, departmental resources must first be exhausted prior to a transfer from General Fund contingencies. Upon conducting a final financial review of departmental budgets towards the end of the year, a transfer from contingency will be made to cover unanticipated costs that could not be absorbed through the year.
- B. <u>Emergency Requests.</u> Emergency requests during the fiscal year will be submitted to the City Manager's office for recommendation and forwarded to the City Commission for consideration.

7. Employee Salary Adjustments

- A. Cost of Living Adjustment. Budgeting for personnel service expenditures will include an amount for a cost of living adjustment. The amount budgeted for this purpose will take into account the most recent consumer price index information available at the time the budget is prepared, existing collective bargaining agreements, and other relevant information. Employees may not receive a cost of living adjustment if it's determined that insufficient resources exist to do so.
- B. <u>Step Adjustments.</u> Budgeted personnel services expenditures will include an amount to account for annual step adjustments for all employees who are not currently at the top of their range. Annual employee step adjustments will not exceed 5%.

8. Budget Controls

A. <u>Legal Compliance</u>. The City Manager's Office will continue to review and control

departmental budgets at the expenditure category level (such as personnel services, materials and supplies). As such, the City Manager's approval is necessary before actual or projected year-end expenditures are allowed to exceed total expenditure appropriations for each expenditure category.

9. Discretionary Resources

- A. <u>Maximize the City Commission's Discretion.</u> Wherever legally possible, revenues are to be treated as discretionary resources, rather than as dedicated to a particular program or service. The goal is to give the City Commission as much flexibility as possible in allocating resources to local priorities.
- B. <u>Transient Room Tax Revenues.</u> Room tax monies are not legally dedicated to fund particular programs or services and shall be considered purely discretionary resources.
- C. <u>Use of Dedicated Funding Sources</u>. Whenever legally possible, the City will transfer funding responsibility for existing services or activities to the appropriate dedicated funding sources, freeing up scarce discretionary resources as much as possible.

10. Unappropriated Ending Fund Balances & Contingencies

A. <u>Contingencies.</u> Generally, the City should limit the use of contingencies to circumstances where they are required by law or needed for emergencies allow.

Passed and adopted November 20, 2002.

This resolution is effective December 1, 2002.

Mayor length

City Manager

Resolution Number 2033

A Resolution Establishing Budget Strategic Plan & Resource Reduction Policy

The City Commission of the City of Warrenton hereby resolves the following:

BUDGET STRATEGIC PLAN

Section I - Guiding Policies & Principles

- 1. Recognizing its financial limits, and the potential for future decreases in General Fund revenue, the City of Warrenton will make a distinction between three different types of services: 1) those that are appropriately funded primarily from City discretionary resources, such as property taxes, 2) those that are appropriately funded primarily from entrepreneurial activities, and; 3) services designated as special revenues:
 - A. Services are appropriately funded with discretionary resources if they are traditional City services, have historically been funded by discretionary monies, and they are not services which are capable of generating significant revenues from fees or other sources. The City will continue to fund these programs primarily from discretionary resources.
 - B. Services are appropriately funded as enterprise activities if they are not traditional City services funded with discretionary monies or if they are traditional City services, but have the ability to generate significant revenues from fees, the sale of services, or other sources, to be self-sustaining. The City will fund these programs primarily from fees and the sale of services and user fees. Exceptions may be made on a case-by-case basis. The test will be whether or not the City would incur more discretionary costs by failing to provide discretionary support to a Citywide service appropriately funded as an enterprise activity.
 - C. Services are appropriately funded with special revenues if they are not traditional City services historically been funded with discretionary resources or if they are traditional City services, but have the ability to generate revenues and/or receive restricted or dedicated revenues from other sources. The City will fund these programs and services with special revenues. Exceptions may be made on a case-by-case basis. The test will be whether or not the City would incur more discretionary costs by failing to provide discretionary support to a Citywide service appropriately funded with special revenues.
 - D. All other fund types will be budgeted and managed in accordance to Generally Accepted Budgeting/Accounting Principles, State Budget Law and guidelines developed by the Warrenton Budget Committee.
- 2. The City has prioritized those services appropriately funded by discretionary resources. To the extent additional discretionary resources are available, high priority service areas will be slated for growth in discretionary support. Lower priority service areas will receive constant or decreasing discretionary support. The City's prioritization of services is as follows:

General Fund Priorities

- 1. Any/All General Fund Debt Obligations
- 2. Fire Department
- 3. Police Department
- 4. Dikes Department
- 5. Administration/Commission
- 6. Planning Department
- 7. Building Department
- 8. Municipal Court
- 9. Building Maintenance
- 10. Parks Department
- 11. Fire Apparatus Replacement Fund
- 12. Recreation
- 3. Because the City Commission believes that the Citizens of Warrenton have a right to know the actual cost of City services, overhead and indirect costs will not be prioritized, but will be sized to the need and size of the overall organization. Any reduction in the proposed indirect or overhead costs will be matched with a proportionate decrease in program and service costs in the same fund.
- The Budget Officer will be responsible for budgeting and calculating the indirect cost and overhead allocations to the City's various departments and funds pursuant to definitions and principals found in Generally Accepted Accounting Principles for local governments. In calculating the General Fund's portion of indirect costs, the Budget Officer will use an allocation methodology based on objective financial information. The indirect cost methodology will be uniformly applied to all Departments and funds.
- 5. Generally, wherever possible, the City's goal is to make fee-supported programs self-sufficient. This includes recovering those services fair share of overhead costs, including utilities.
- 6. Where legally possible, the City will consider using dedicated resources to fund high priority services/programs related to the purpose for which the dedicated funds are received.

RESOURCE REDUCTION STRATEGY

Section II - General Policies and Principles

- When faced with a potential reduction in resources, the City's goal is to continue to provide high priority services in a professional, effective and efficient manner. To the extent possible, across-the-board reductions in expenditures will be avoided. Reductions will be made on a case-by-case basis, focusing on each individual program or service.
- 2. In making expenditure reductions, the goal will be to reduce or eliminate funding for lower priority programs or services before considering funding reductions for higher priority programs. Wherever possible, it will be the City's goal to reduce the quantity of a service being provided, rather than the quality of service (e.g., limit the number of recipients of a service, rather than the quality of service provided to the remaining recipients).

 Recognizing that it does not necessarily make sense to fund current operations at the expense of longterm capital or planning programs, every effort will be made to continue capital and planning programs geared to the City's short and long term infrastructure and capital needs.

Section III - Resource Reduction Priorities

- 1. If, as a result of loss of a significant amount of discretionary resources, expenditure reductions become necessary, those reductions will be made roughly in the following order:
 - A. First, City's contributions to outside organizations will be reduced or eliminated. If this proves insufficient, then;
 - B. The Budget officer will propose moderate reductions in discretionary support will be made on a case-by-case basis. These reductions will focus first on programs appropriately funded by discretionary and/or dedicated resources and then low priority services appropriately funded by discretionary resources. If this proves insufficient, then;
 - C. Any discretionary funding for Citywide services will be reduced or eliminated. The Budget Officer will propose exceptions to be made on a case-by-case basis, focusing on those programs that are part of the service delivery system for which the City has primary responsibility. The test will be whether or not the City would incur more costs by failing to provide discretionary support to a Citywide service. If this proves insufficient, then;
 - D. Discretionary funding for programs will be reduced or eliminated, starting with the lowest priority service area and moving on to higher priority service areas as needed and on a case-by-case basis. Depending on the amount of the reduction needed, the City will consider and evaluate those discretionary services that constitute the largest allocation of revenue as areas to seek reductions. City service area priorities are:

General Fund Reduction Priorities

- 1. Recreation
- 2. Fire Apparatus Replacement Fund
- 3. Parks
- 4. Building Maintenance
- 5. Municipal Court
- 6. Building Department
- 7. Planning
- 8. Administration/Commission
- 9. Dikes
- 10. Police
- 11. Fire
- 12. Any/All General Fund Debt obligations

Overhead will be sized to the needs and size of the rest of the organization. If this proves insufficient, then;

E. A reduced City workweek will be proposed to achieve salary savings. If this proves insufficient, then;

F. The City will consider a reduction in force.

This resolution is effective December 1, 2002.

Mayor off Hazen

Attest:

City Manager

CITY OF WARRENTON ORGANIZATIONAL STRUCTURE AND STAFFING

WARRENTON CITY COMMISSION

Commissioner

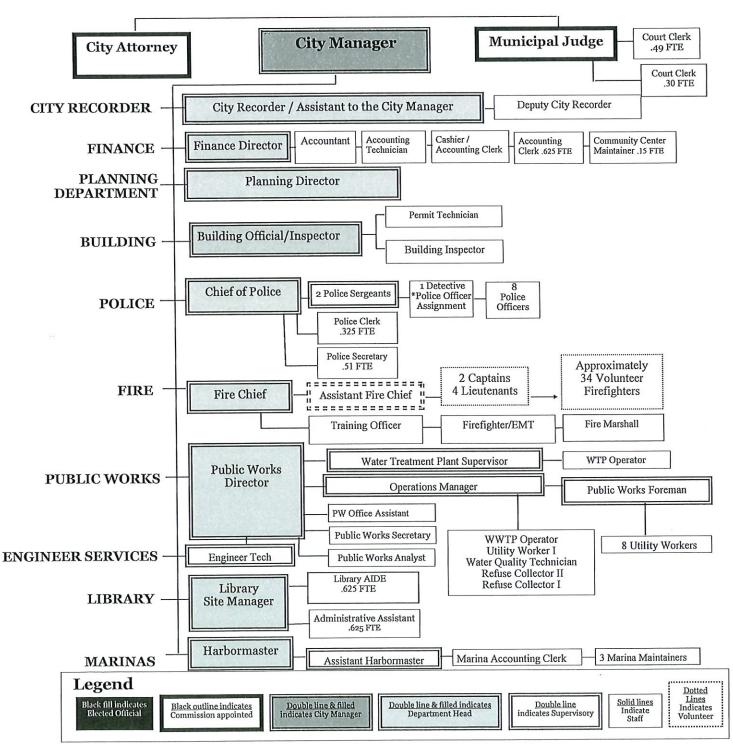

Commissioner

Mayor

Commissioner

Commissioner

ADMINISTRATION

Budget Programs

General Fund

The General Fund accounts for services provided by the local government that is not accounted for in other funds. These major services include, among others, police and fire protection, management of the City's parks, operation of the municipal judicial system, City Administration/Commission/Finance, and Community Development and Planning.

The General Fund includes all services that are funded through general taxes and fees. In other words, it includes all city programs **except** those that are paid for through dedicated taxes (for example, the motor vehicle tax) or fees (for example, water fees).

Following is a review of the 2021-2022 General Fund and its programs.

Municipal Court

The Warrenton Municipal Court processes traffic infractions, misdemeanor crimes, and city ordinance violations (other crimes are handled by Clatsop County Circuit Court in Astoria). Court is typically held twice each month. One full-time clerk and one part-time clerk split their time between Court and Police duties.

Administration/Commission/Finance

This department includes all the costs of the City Commission, City Manager, City Recorder/Assistant to the City Manager, Deputy City Recorder, and Finance Department staff.

The administration responsibilities include day-to-day management of the city; converting City Commission goals into action; managing city contracts, franchise agreements and grant projects, responding to citizen inquiries and complaints, working with state and federal elected officials and departments, and managing city records.

The mission of the Finance Department is to provide all proper and necessary accounting, auditing, and financial management services to and for the City. These services include receipting and disbursement of City financial resources (including utilities billing/collection and payroll), sound investment of cash, accurate and timely recording of all financial activity, monitoring compliance with Oregon Local Budget Law, maintaining financial records, accounting for fixed assets, monitoring financial compliance with various Federal, State, and local requirements and dealing with the involved governmental agencies, and providing support to City departments and staff in areas of financial management.

The costs of this department are charged to the various general fund departments as well as the other major funds which include the Community Center, WBL, Library, Building Department, State Tax Street Fund, Warrenton Marina, Hammond Marina, Water Fund, Sewer Fund, Storm Sewer Fund and Sanitation. The general fund resources show 100% of the costs being recovered

through these charges. The overhead resources exactly offset the costs in this department with the resulting net effect of the overhead costs being allocated to the general fund departments.

Planning

The Planning Department serves current residents and individuals moving to Warrenton with building and planning services in the belief that a growing community can remain livable, can meet the needs of its citizens and become a diverse community with jobs and housing needs met.

Police

The Warrenton Police Department is a progressive department which believes in "community policing" and strives to deliver quality personal service to Warrenton residents and people visiting our community. Officers handle criminal investigations, traffic control/enforcement, and school resource functions. This budget consists of nine patrol officers, two sergeants and the chief of police. Support staff consists of one full-time police secretary, one part-time administrative assistant, and one casual data processor.

Fire

The Warrenton Fire Department serves both the City of Warrenton and the Warrenton Rural Fire Protection District. Paid personnel consist of the Fire Chief, Division Chief of Training, and Division Chief of Operations/Recruitment. All three positions are funded entirely by the General Fund. A Grant is being sought to fund a Fire Marshall and will be funded in the Grants Fund. The Warrenton Fire Department provides a very high level of dedicated service to City residents and businesses. Currently there are approximately 20 volunteer firefighters. Similar services provided by a full-time department would be unaffordable.

Parks

The City maintains six parks within the City limits. These include the Quincy and Bessie Robinson City Park with baseball fields, tennis courts and playground equipment; Seafarer's Marina Park, (next to the Hammond Marina); Eben Carruthers Park, with picnic areas, a viewing platform and dog park on the Columbia River; Parade Ground Park in the Old Fort Stevens Officers' Row; Fort Stevens Park, at Pacific and 7th Drive and Skipanon River Park on Second Street. In addition, the City maintains the greenway along Pacific Avenue in the Hammond District.

Contingency

This is used to account for a general operating contingency for the general fund. The City's fiscal policies state that "the City will strive to attain a General Fund Contingency of at least 5% of the overall General Fund to be used for unanticipated emergencies during the year.

Transfers

The City plans for transfers from the General Fund to other funds when required. For example, the City has reserve funds in which it saves money for the future purchase of equipment, vehicles, and major capital and maintenance needs for buildings and grounds.

Special Revenue Funds

The special revenue fund type is used to account for the proceeds of specific revenue sources that are legally restricted to expenditure for specified purposes.

Community Center Fund

The Community Center was built with funds from an Oregon Community Development Block Grant. It provides space for senior congregate meals supported by the Area Agency on Aging. It is also rented to the public for meetings, weddings, receptions and parties. The Center has an advisory board to the commission, while day to day operations are handled by the Center manager. Revenues are from rentals, donations, fund raisers and interest income. Expenditures are for the maintenance of the facility, insurance, utilities and supplies. Excess revenues are reserved in the capital reserve fund.

Warrenton Business License Fund

This fund receives its revenues from the sale of Business Licenses required of all businesses operating within the City of Warrenton. The goal of the WBL Fund is to enhance the economy and livability of the City by providing funds for programs and projects such as nuisance abatement, beautification of the City, grants to Main Street programs for funding of events, festivals and projects, assisting with public safety programs and equipment purchases, and other similar tasks and projects as recommended and approved by the City Commission.

Grant Fund

This fund is used to record grants from a variety of sources. This budget year includes anticipated grants for Police, Fire, and a Homeland Security Grant.

Library Fund

Since May of 2017, the Warrenton Community Library has been located downtown in a rental facility. Much of the library operations is provided by many volunteers. The library has an advisory board to the commission. During the 2021-2022 budget year, the library will have one full-time Library Manager who is responsible for coordination of volunteers and day to day operations, one part-time (25 hour) administrative assistant and one part-time (25 hour) library aide. Funding consists of a five year Local Option tax levy which was renewed and increased by voters in 2018 and expires in 2023.

Building Division

The Building Division provides comprehensive enforcement of building, plumbing, mechanical, and fire and life safety codes of the State of Oregon. This division ensures that commercial and industrial buildings, residential dwellings, and public buildings such as schools and government buildings are constructed in conformance with all regulatory codes to ensure the continued safety and well-being of all members of the community. This division is funded solely from building permit fees.

Transient Room Tax Fund

The Transient Room Tax was passed to help defray costs of police and first response medical assistance and infrastructure usage by tourists and other short term visitors to the City of Warrenton, as well as to provide funds for tourist promotion. The tax is currently 12% of gross revenues for all short term (less than 30 days) rental of sleeping and camping space. Based on direction established in the 2004-05 Budget, funds are allocated as follows. Of the total collections, the collector retains 5% to cover costs of collection, and the remaining 95% is remitted to the City. The City then forwards 6.8% to the Lower Columbia Tourism Council, 5.84% to the Visitors Center, 19.44% to the Hammond Marina Capital Reserve Fund, and the balance of 67.92% is deposited in the General Fund.

State Tax Street Fund

Revenues to this fund are provided by the Oregon State Department of Transportation, State Highway Trust Fund and the City .03 cent fuel tax. The revenues are paid each month from net receipts collected by the Motor Vehicles Division, Highway Division, and the Motor Carrier Transportation Branch. One percent of all gas tax receipts are set aside for bicycle lanes and pedestrian paths. The City fuel tax is estimated to net approximately \$361,000 this year. The City fuel tax is used to pay for rebuilding and overlaying city streets. The balance of the fund is used for street maintenance and repair, and street lighting.

The City recently completed a pavement management program that determined a schedule of street improvements. In addition, this plan is updated by staff each year. Consideration will be given to street repair as conditions change. Other options to repair streets include system development charges, and local improvement districts.

Quincy Robinson Trust Fund

The Quincy and Bessie Robinson Trust was created to fund the establishment and maintenance of a public park(s). The only guideline is that the park(s) be a place for the preservation of nature and the perpetuation of enjoyment for all people. Each year, the trust distributes the greater of (1) an amount equal to 5 percent of the net fair market value of the trust assets or (2) 85 percent of the net income of the trust.

Capital Projects/Capital Reserve Funds

The capital projects fund type is used to account for the acquisition or construction of major capital facilities. Capital reserve funds serve as saving accounts to accumulate funds for major maintenance and capital projects.

Community Center Capital Reserve Fund

Reserve funds are used to accumulate money for financing the cost of any service, project, property or equipment. This allows the City to set aside money from year to year. This fund accumulates resources from the operational surpluses of the Community Center Fund

Facilities Maintenance Fund

This reserve fund is used to accumulate money for financing the costs of major maintenance and capital improvements of the Municipal Building, Head Start Building, Community Center and Park Facilities. This allows the City to set aside money from year to year to meet future requirements. This fund's resources are transferred from the revenues of the General Fund.

Streets SDC Fund

The City implemented a system development charge in 2012. These charges are used for capital projects and improvements made necessary by the increased usage of the infrastructure caused by development within the community. The current fund balance is \$1,070,281.

Parks SDC Fund

The City implemented a system development charge for Parks in 2013. These charges are used for capital projects and improvements made necessary by the increased usage of the infrastructure caused by development within the community. The fee is \$599 per residential unit. The current fund balance is \$179,564.

Police Vehicle Replacement Fund

This reserve fund is used to accumulate money for financing the costs of police vehicles. This allows the City to set aside money from year to year to meet future requirements. This fund's resources are transferred from the revenues of the General Fund. It is proposed in this budget year that the Warrenton Business License Fund will also transfer revenues to assist with vehicle replacement. This year two vehicles are proposed for replacement.

Fire Apparatus & Equipment Replacement Fund

This reserve fund is used to accumulate money for financing the costs of fire apparatus and equipment. This allows the City to set aside money from year to year to meet future requirements. This fund's resources are transferred from the revenues of the General Fund. The Warrenton Business License Fund will also transfer revenues to this fund this year.

Two FEMA grants have been applied for this year to purchase a Self-Contained Breathing Apparatus and a Type 3 Fire Engine. Accumulated funds will provide matching amounts required by the grants. One Fire Utility Vehicle is also proposed.

Tansy Point Dock Capital Reserve Fund

This reserve fund is used to accumulate money for financing the costs of major maintenance and capital improvements to the Tansy Point Dock which is leased to Warrenton Fiber Company. This allows the City to set aside money from year to year to meet future maintenance and capital requirements. This fund's resources are transferred from the revenues of the General Fund.

Enterprise Funds and Related Capital Reserve/Capital Project Funds

The enterprise fund type is used to account for operations (a) that are financed and operated in a manner similar to private business enterprises — where the intent of the governing body is that the cost of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.

Warrenton Marina Fund

The Warrenton Marina is actually two separate facilities located on the Skipanon River. One services commercial fishing, shrimp and crabbing vessels; the other services sports fishermen. The City provides water and electricity to the moorage slips. Revenue comes from moorage rentals, parking, electricity, hoist services, and land lease rentals. The marina is intended to be self-supporting, including payment of debt service. New marina office facilities and a bathhouse were completed in 2015 and commercial docks were upgraded in 2017. These improvements were funded from Urban Renewal dollars.

Warrenton Marina Capital Reserve Fund

This reserve fund is used to accumulate money for major maintenance and capital improvements. Funding of the reserve is solely from the operations of the Warrenton Marina.

Phase 1 & 2 of Commercial Work Pier Improvements is proposed this year, but will be funded mostly by Urban Renewal, rather than the Capital Reserve Fund. A dock pile replacement and lighting project in the innver basin is proposed in this year's budget.

Hammond Marina Fund

Hammond Marina is a sports fishing dock facility located on the Columbia River. The Marina is self-supporting. Revenues are from moorage rentals, electricity usage, dry boat storage, and launch ramp fees.

Hammond Marina Capital Reserve Fund

This reserve fund is used to accumulate money for major maintenance and capital improvements. Funding of the reserve is solely from the operations of the Hammond Marina. The transient room taxes collected by the City and the County also contribute to this fund.

Completion of Dredging of the Hammond Marina is planned this year.

Water Fund

The Water Fund is self-supporting through user fees, connection fees and interest income. The Warrenton water system serves approximately 3,500 customers between the City of Gearhart and the Columbia River. The water fund operates, maintains and improves the water treatment, transmission, storage and distribution systems. The treatment system is a membrane filtration system.

Due to the current Covid-19 Pandemic, no water rate increases are being recommended for the second year in a row. Future projects may need to be delayed and omitted as a result. A recent Water Masterplan was completed, identifying several projects that need to be completed in the near future.

Water Fund Capital Reserve

This reserve fund is used to accumulate money for major maintenance and capital improvements. Funding of the reserve is solely from the operations of the Water Fund. A Study to update the capital needs of the Water System was commissioned in 2005. This report reviewed decisions made in the 1998 facilities plan and recommended a capital improvement schedule. In addition, a water hydraulic model was completed in 2011 that listed necessary improvements. Capital improvement projects included in the proposed Budget are based on these reports and the hydraulic model. A water masterplan was also prepared in 2018, identifying additional needed improvements.

We have delayed capital projects due to inadequate funds. The rate increases prior to the pandemic were beginning to provide the funds needed to design and construct much needed improvements in our system, but it has and will continue to take multiple years to save enough money for each large project.

Water System Development Fund

The City charges set fees on new construction. These charges are used for capital projects and improvements made necessary by the increased usage of the infrastructure caused by development

within the community. These funds can also be used to repay existing debt associated with capacity-increasing improvements. They have been used for that purpose in the past, but are not being propsed for that purpose in the current fiscal year. The current balance in the fund is \$134,416.

Storm Sewer Fund

The Federal Environmental Protection Agency (EPA), through the Oregon State Department of Ecology, has established laws pertaining to storm water runoff and water quality. The intent behind these laws is to reduce the amount of storm water source pollution and to prevent such runoff from entering the sanitary sewer system. The revenue in this fund is based on a 20% surcharge on all sewer billings and is used to expand and improve storm drainage systems.

The dikes protect 3,718 acres of land from the encroachment of the Columbia River and the Pacific Ocean, during high tides and Columbia River flood events. The City is responsible for maintaining 8.83 miles of dikes (levees) and associated tide gates. In 2006 the Federal Emergency Management (FEMA) introduced new Flood Insurance Rate Maps (FIRM) as they relate to our ability to prevent flood damage up to the one percent annual chance of a flood event (100-year flood). As the City Commission is aware, the process to obtain levee certification with the US Army Corps of Engineers is of paramount concern. The City is now working with FEMA to determine the elevations of the one percent annual flood event and expects to have elevations from FEMA in 2020 or beyond. The City is looking for State funds to complete a geotechnical study of its dike system. Funds will likely come in the form of loans and grants. Funding for this certification work has been allocated in the Storm Sewer Fund, along with funds for modifications, if needed. If the City is not able to obtain certification, then most residential owners within 60-70% of the city may be required to pay for flood insurance at a much higher premium cost. Any new home owners would be required to buy flood insurance as part of the purchase closing. The city adopted the new FIRM September 2010 and in 2018. A 0% increase has been proposed in the budget.

Storm Sewer SDC Fund

The City approved a new system development charge in 2012. These charges are used for capital projects and improvements made necessary by the increased usage of the infrastructure caused by development within the community. The current balance in the fund is \$83,688.

Sewer Fund

The Warrenton Sewer System currently serves approximately 2,100 customers. In 2006 the City completed construction of a new Sequence Batch Reactor Treatment Facility and outfall to the Columbia River to replace the current lagoon system. Revenues in this fund are from user fees, connection fees, and interest income. A ballot measure was approved by Warrenton voters to fund the new debt with property taxes. The Proposed Budget recognizes this funding method. The Shoreline Sanitary Sewer District connected to our system in 2016 through an intergovernmental agreement.

A 0% rate increase is proposed for 2021-2022.

Sewer Fund Capital Reserve

This reserve fund is used to accumulate money for major maintenance and capital improvements. Funding of the reserve is solely from the operations of the Sewer Fund.

Continuing sewer projects without a rate increase will jeopardize any future improvement projects. The City currently has identified \$555,650 in collection system and pump station projects. Reserves are also being set aside for large future projects. Sewer rate increases allow the operating fund to continue to make transfers into the Sewer Fund Capital Reserve Fund for capital expenditures. The City recently completed a Capacity Analysis of our existing treatment plant. It has been determined that a major expansion is required. The City expects this expansion to cost approximately \$4.1 million.

Sewer Systems Development Fund

The City charges set fees on new construction. These charges are used for capital projects and improvements made necessary by the increased usage of the infrastructure caused by development within the community. These funds can also be used to repay debt associated with capacity-increasing improvements. They have been used for that purpose in the past but are not budgeted to pay any debt service this fiscal year. The current balance in the fund is \$111,410.

Sanitation Fund

The Sanitation fund provides solid waste collection for residents of Warrenton. The Sanitation Department services over 2,100 residential and commercial customers. Recycling service is contracted and provided by Recology, along with six other agreements.

The program included in the Proposed Budget is based on the City continuing to provide residential and commercial trash collection. Rates have not been increased since 2006, though costs have continued to rise. Increased revenues are needed to continue to provide these services and fund capital projects.

Sanitation Fund Capital Reserve

This reserve fund is used to accumulate money for major maintenance, capital equipment, and major improvements. Funding of the reserve is solely from the operations of the Sanitation Fund. A storage facility is proposed in this year's budget.

Debt Service Funds

The debt service fund type is used to account for the accumulation of resources for and payment of general long-term debt principal and interest.

Wastewater Treatment Facility GO Bond Fund

This bond issue was authorized by a vote of the citizens of Warrenton on November 7, 2006. The amount issued for the construction of the Wastewater Treatment Facility was \$8,079,696 at 2.94% interest. The bonds will be fully repaid on December 1, 2026.

Internal Service Funds

The internal service fund type is used to account for activity that provides goods or services to other funds, departments, or agencies of the primary governments and its component units, or to other governments, on a cost-reimbursement basis.

Engineering Internal Service Fund

The City hopes to hire an in-house engineer technician in 2021-2022. This position has been vacant for the past four years. This position is expected to work mainly on capital projects. The costs associated with the engineer are accumulated here and reimbursed by the appropriate departments and projects.
