2022-27 CAPITAL IMPROVEMENTS PROGRAM

A Capital Improvement Program (CIP) is a financial planning tool to help the community direct scarce resources to high priority projects. Through planning, the City will be able to complete projects to improve the quality of life in Warrenton and have the resources to acquire necessary equipment to ensure efficient delivery of services.

Capital improvements are assets that include planned purchases of equipment as well as construction projects for facilities and utility systems. Examples of equipment include the purchase of vehicles, major tools, police cars, copiers, backhoes, dump trucks and bucket trucks.

Capital construction projects include new facilities, remodeling or enlargement of existing facilities, expansion or capacity improvements to utility systems and major system improvements. Maintenance projects, such as the overlay of a street, painting a building or replacing a broken pipe, are not considered capital improvements.

Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 and an estimated useful life beyond a single financial reporting period. However, all land that is purchased, regardless of cost, is considered a capital item.

The CIP is a document meant to be revised and updated each year. After each completed year, a new year is added. Only money budgeted in the annual budget is approved for spending for items contained in the CIP.

2022-27 CAPITAL IMPROVEMENTS PROGRAM SUMMARY

The next page contains a summary of all projects. Projects within the CIP are expressed in current dollars and are not adjusted for inflation. Projects contained in future years are not necessarily expected to have precise cost estimates but reflect a general idea of cost. Costs will be revised as a project moves closer to implementation.

On the right-hand side of the Summary is a column “secure funding”. If the secure funding column is marked yes (Y), it means there is reasonable certainty money will be available when the project needs to be funded. Any project requiring voter approval for funding is not considered secure. A discussion of the status of prior year projects will be found on the page following the summary.

Project: **Fire Department Self Contained Breathing Apparatus (SCBA)**
 Project Number: 610009
 Project Cost: \$ 191,000

Description: The Fire Department maintains and uses SCBAs for the purpose of search, rescue and fire suppression. The SCBAs give the ability to breath in a toxic/smoky environment. This expenditure is to replace our existing SCBAs that no longer meet today's National Fire Protection Agency (NFPA) standards. **Warrenton Fire Department is seeking grant funds from FEMA AFG. This will require the fire department to contribute a 5% match. Federal Funds \$181,450 match WFD \$9,550**

Benefits: Upgrade to new NFPA standard to become compliant with OSHA, NFPA

Cost Calculation: Estimate from MSA vendor

O & M Impact: Annual testing and maintenance of the SCBAs are estimated at \$1,700.00
