

E-Cigarette & Vaping Devices Disposal

On the DEA National Take Back Day on October 24, 2020 (NTBI 19):

- DEA will collect vape pens or other e-cigarette devices from individual consumers **only** after the batteries are removed from the devices. It is important to stress that the DEA is not responsible for removing the batteries from the devices.
- If the battery cannot be removed, individual consumers can check with large electronic chain stores who may accept the vape pen or e-cigarette devices for proper disposal.
- Individual consumers may also contact their local Hazardous Materials Management Facility to determine if they accept these devices, and for additional guidance regarding proper disposal.
